Functions and Features

Smart storage location suggestions based on your storage strategy:

- Filter for available storage locations
- Consider load supports restrictions
- Pay attention to dimensions and weight
- Sort by default locations, temperature, and hazard classes

Effortlessly store complete pallets:

- Our mobile app guides you step by step and helps avoid mistakes.
- Storage is only complete once the placement at the storage location is confirmed.
- Keep track of your storage units.

Store goods without load supports with ease:

Avoid unnecessary movement of goods in the warehouse by reporting the target storage location as "full" if bulky items or incorrect dimensions are present.

Store partial quantities effortlessly:

- Automatically generate a new storage order for the remaining quantity.

Change the target storage location at any time:

Simply scan the barcode at the storage location or manually enter the storage location ID to change the target storage location, even after creating a storage order.

Cancel transports at any time:

Cancellation is possible throughout the entire storage process. Incorrect cancellations can be easily undone.
