

 Warehouse Star

Reporting

Web App

Gain maximum transparency over your warehouse operations! With our **WebApp Reporting** you can monitor and control performance, stock, and operations at a glance.

Your Benefits

- Analyze changes and bottlenecks within the business.
- Accelerate business outcomes by increasing agility and efficiency in every area of operations.
- Efficiently use the information contained in your WMS' data to drive innovation, accelerate value creation, and increase your competitive advantage.
- Free up your time for more-strategic tasks by leaning on data automation and visualization.
- Gain quick insights.

Reporting Web App

Functions and Features

Bitergo WMS Reporting comes with a series of custom designed Warehouse Management Reports, a generic dashboard and the option for other individual reports suited to your needs.

Management Report Performance „Outbound“

- **The Data:** Sales and number of orders per sales channel, selectable by day(s), week or month.
- **The Benefit:** Get into control of your shipped value and items. Identify root causes for lower performance

Operational Report Performance „Resources“

- **The Data:** Pick and pack capacity per hour selectable by day, week, or month.
- **The Benefit:** Monitor the development of picks over the time of the day and the number of shipments summarized for the warehouse or detailed per resource. Spot bottlenecks easily and take corrective actions based on your production data.

Operational Report Performance „Pick Lines“

- **The Data:** Number of picks by working days per month.
- **The Benefit:** Monitor the development of pick numbers over time. Spot bottlenecks easily and take corrective actions based on your production data.

Operational Report Performance „Transport Completion“

- **The Data:** Shows number of open and completed picks per transport.

- **The Benefit:** Monitor the completion of your planned transports. Get an overview on the remaining workload and identify by one single click the transports you need to focus on.

Dashboard

Generic dashboard for the overall warehouse performance allows an individual view on the most important KPIs

Individual Customized Reports

On request we can design individual customised reports using operational data from your Bitergo WMS.
