⬡ Warehouse Star

Packaging
Web App

Efficient Packaging for Smooth Outbound Logistics: The web app **Packaging** revolutionizes your logistics processes. Benefit from precise and time-saving packaging for error-free outbound operations.

Your Benefits

- **Accurate Packaging with Minimal Effort:** Our app allows your warehouse operator to quickly access all relevant shipping order data such as weight and volume – without the hassle of measuring and weighing.

- **Error Prevention through Intelligent Packing:** Avoid returns due to incorrect packaging. Our app ensures that the right goods are packed together. The warehouse operator always has an overview of the content of the picking containers.

- **Flexibility in Correction:** Packages can be effortlessly opened to add or remove items. This keeps your processes dynamic and error-free.

- **Seamless integration:** Utilize the benefits of the integrated **Bitergo Warehouse Management** Solution and access other apps such as **Order Picking, Outgoing Goods, and Shipping.**

Functions and Features

Packaging on Demand:

Regardless of the push or pull principle – our app adapts to your individual requirements. Choose the shipping order or picking container, and you're good to go!

Easy Unpacking:

Dissolve packages or remove individual items in a snap. Our system allows for swift rebooking into the picking container.

Efficient Closure of Packages:

Update the total weight as needed and effortlessly generate package labels and packing lists for a smooth shipment.

Optimization of Your Workstation Data:

Create new workstations or adjust existing data – according to your requirements. From the picking area to outbound operations, we have it all covered.
